Position on Article 33 REACH & SCIP, concerning our optical glass, filter glass, fused quartz products and ZERODUR®

Dear Sir or Madam,

This letter is for REACH information for the named products listed here below:

Our Optical Glass, Filter Glass, Fused Quartz Products and ZERODUR®, all in development state February 2026.

We would like to take this opportunity to inform you about the SCHOTT position concerning the legislative requirements given by Articles 9(1)(i) and 9(2) EU Waste Framework Directive (98/2008/EG; SCIP) with reference to Article 33, REACH Regulation (1907/2006/EG; SVHC).

The current major chemical legislation of the European Union, REACH, entered into force on June 1st, 2007. It regulates the manufacture, the import, and the placing on the market of substances, substances in mixtures, and substances in articles. REACH in its complexity makes clear distinctions between 'substances', 'mixtures' and 'articles', and requires different actions to the relevant producers, to enable them to comply with the law.

In particular, we are aware of our duties as a supplier of 'substances', 'mixtures' and 'articles' according to Article 33 REACH regulation.

We are obliged to provide information to our customers (downstream-user information) regarding substances contained in our products that

- a) are listed on the ECHA candidate list of substances of very high concern (SVHC)
- b) in an amount (w/w) of higher than 0.1 weight-%.

Since our products consist mainly of tempered glass and since glass, as a 'substance' itself (CAS 65997-17-3), is not included in the candidate list, currently our glass products are exempt from

SCHOTT AG

Chairman of the Supervisory Board: Dr. Michael Bolle

Board of Management: Dr. Torsten Derr (Chairman), Dr. Andrea Frenzel, Dr. Heinz Kaiser, Marcus Knöbel

Registered Office: Mainz · Amtsgericht Mainz · HR B 8555 · UST-Id.-Nr.: DE811120270

Commerzbank AG, Mainz · Sort Code 550 400 22 · Account Number 2 260 008 00 · SWIFT: COBADEFF550 · IBAN-Nr. DE92 5504 0022 0226 0008 00

Deutsche Bank AG, Mainz · Sort Code 550 700 40 · Account Number 0 123 265 00 · SWIFT: DEUTDE5M · IBAN-Nr. DE71 5507 0040 0012 3265 00

this information duty under REACH. For the production of tempered glass and molded parts, we may use other 'substances' besides glass, which may be already included on the candidate list. But those 'substances' are completely incorporated in the glass matrix forming the new 'substance' glass while losing their former specific properties.

Only in the case of improper handling, possibly small amounts of the network components could again be available in oxidic form. In this absolutely not recommended case, their specific characteristics must be taken into account in the obligatory risk assessment. Therefore, refer to the materials' specific material datasheets (MDS) or safety datasheets (SDS).

Based upon our review of the information provided to us by our suppliers, we confirm that our optical glass, filter glass, fused quartz products and ZERODUR® do not contain materials included in the current SVHC candidate list, nor are any such substances present in the products above the applicable threshold (0.1%).

The current candidate list of SVHC can be located at: <http://echa.europa.eu/candidate-list-table>

The duty for provision of respective information as well via the SCIP database (Waste Framework Directive) is explicitly connected to the information duty Article 33 REACH. As our named glass products are not subject to Article 33, there is no duty for notification in SCIP also.

Annex XIV: Glass as a substance is not listed on the Authorization List of REACH Annex XIV.

Annex XVII: Glass as a substance is not listed REACH Annex XVII.

Exception for lead glass: Lead glass could be affected by entry 63 (Lead + Compounds), §7, (> "not to be placed on the market for consumer use"). All substances we produce are intended for industrial use only.

The information given in the present declaration is based upon the current level of our knowledge and is intended to provide information about our products. It should therefore not be construed as guaranteeing specific properties. Buyers or users are responsible for ensuring that the products they use, as supplied by us, comply with the specific requirements of their intended application. Due to the progress (evolution) of national and international regulations and laws, the status of the named products could eventually change. If you have any doubt relating to the current correctness of this declaration, please contact us for an update.

Should you have any questions, please do not hesitate to contact us.

Yours sincerely,

SCHOTT AG
Business Unit Advanced Optics
