glass made of ideas

**Safety Data Sheet**

according to 29 CFR 1910.1200(g)

**1. Identification****Product identifier**

RD 50®

**Further trade names**

none

REACH No.: 01-2119990048-30-0000

EC No.: 701-387-5

Substance name: specialty glass, oxide, chemicals

CAS No: 65997-17-3

**Recommended use of the chemical and restrictions on use****Use of the substance/mixture**

Glass.

Industrial use, Professional use.

**Uses advised against**

Do not use for private purposes (household).

**Details of the supplier of the safety data sheet**

Company name: SCHOTT AG  
Street: Hüttenstr. 1  
Place: D-31073 Grünenplan  
Telephone: +49 (0)5187 / 771-0  
Contact person: Dr. Andreas Helmstedt  
E-mail: andreas.helmstedt@schott.com  
Internet: www.schott.com  
Responsible Department: Site Home Tech Grünenplan:  
Telefon: +49 (0)5187 / 771 831

**Emergency phone number:** +49 (0)6132 / 84463, 24-hour & 7-day service, GBK GmbH**2. Hazard(s) identification****Classification of the chemical****29 CFR Part 1910.1200**

Reproductive toxicity: Repr. 1A

Specific target organ toxicity repeated or prolonged exposure: STOT RE 1

**Label elements****29 CFR Part 1910.1200****Signal word:** Danger**Pictograms:****Hazard statements**

May damage fertility or the unborn child

Causes damage to organs through prolonged or repeated exposure

**Precautionary statements**

Obtain special instructions before use.

glass made of ideas

**Safety Data Sheet**

according to 29 CFR 1910.1200(g)

Do not handle until all safety precautions have been read and understood.  
 Do not breathe dust/fume/gas/mist/vapors/spray.  
 Wear protective gloves/protective clothing and eye protection/face protection.  
 If exposed or concerned: Get medical advice/attention.  
 Get medical advice/attention if you feel unwell.  
 Store locked up.  
 Dispose of waste according to applicable legislation.

**Hazards not otherwise classified**

The substance in the mixture does not meet the PBT/VPvB criteria according to REACH, annex XIII.  
 In case of inhalation (dust/mist):  
 Irritation to respiratory tract. A repeated, excessive dust exposure can cause pneumoconiosis.  
 After eye contact (dust/mist): Do not subject to friction. Causes serious eye damage.

**3. Composition/information on ingredients****Substances****Chemical characterization**

specialty glass, chemical, oxide  
 CAS No.: 65997-17-3  
 EC No.: 701-387-5

As the substance glass is not included in the candidate list of substances of very high concern, currently there are no information duties according to article 33 of REACH. However for the production of glass we may use substances, which are on the candidate list and had been included in Annex XIV of the REACH regulation or could be included in future. These powdery substances are not present as such in the final glass; they are fully integrated into the glass matrix through the melting process. Thus they lose their original characteristics. With unintended use, some of these substances may be released from the matrix and become bioavailable.

The main components of the glass batch are listed as additional information in chapter 16.

**Hazardous components**

CAS No	Components	Quantity
65997-17-3	specialty glass, oxide, chemicals	100 %

**Further Information**

Substance is complex UVCB.

Composition of mixture according to raw materials, based on the oxides.: SECTION 16: Other information

**4. First-aid measures****Description of first aid measures****General information**

When in doubt or if symptoms are observed, get medical advice.

**After inhalation**

dust/mist: Provide fresh air. When in doubt or if symptoms are observed, get medical advice.

**After contact with skin**

dust/mist: In case of skin reactions, consult a physician.

**After contact with eyes**

dust/mist: Rinse immediately carefully and thoroughly with eye-bath or water. In case of eye irritation consult an ophthalmologist.

**RD 50®**

glass made of ideas

**Safety Data Sheet**

according to 29 CFR 1910.1200(g)

**After ingestion**

dust/mist: Get medical advice/attention.

**Most important symptoms and effects, both acute and delayed**

In case of inhalation (dust/mist):

Irritation to respiratory tract. A repeated, excessive dust exposure can cause pneumoconiosis.

After eye contact (dust/mist): Do not subject to friction. Causes serious eye damage.

**Indication of any immediate medical attention and special treatment needed**

Treat symptomatically.

**5. Fire-fighting measures****Extinguishing media****Suitable extinguishing media**

Co-ordinate fire-fighting measures to the fire surroundings.

**Specific hazards arising from the chemical**

The product itself does not burn. Can be released in case of fire: Metal oxide smoke, toxic

**Special protective equipment and precautions for fire-fighters**

In case of fire: Wear self-contained breathing apparatus.

**Additional information**

Knock down dust with water spray jet. Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

**6. Accidental release measures****Personal precautions, protective equipment and emergency procedures****General advice**

Provide adequate ventilation. Use personal protection equipment. Avoid dust formation. Do not breathe dust.

**For non-emergency personnel**

Use personal protection equipment.

**For emergency responders**

Personal protection equipment (PPE): see section 8

**Environmental precautions**

Do not allow to enter into surface water or drains. Do not allow to enter into soil/subsoil.

**Methods and material for containment and cleaning up****For containment**

Measures to prevent aerosol and dust generation

**For cleaning up**

Take up mechanically. Do not subject to friction. Treat the recovered material as prescribed in the section on waste disposal.

**Reference to other sections**

Safe handling: see section 7

Personal protection equipment (PPE): see section 8

Disposal: see section 13

**7. Handling and storage****Precautions for safe handling****Advice on safe handling**

Provide adequate ventilation. Use personal protection equipment. Avoid dust formation. Do not breathe dust.

## Safety Data Sheet

according to 29 CFR 1910.1200(g)

### Advice on protection against fire and explosion

Usual measures for fire prevention.

### Advice on general occupational hygiene

Take off contaminated clothing. Wash hands before breaks and after work. When using do not eat, drink, smoke, sniff. Avoid dust formation. Do not breathe dust. Avoid contact with skin, eyes and clothes.

### Further information on handling

Protect from moisture.

### Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

Provide adequate ventilation. Store in a dry place.

#### Hints on joint storage

Do not store together with: Strong acid, Hydrofluoric acid, H<sub>3</sub>PO<sub>4</sub>, Phosphoric acid, Alkali (lye), concentrated

#### Further information on storage conditions

Protect from moisture.

## 8. Exposure controls/personal protection

### Control parameters

#### Exposure limits

CAS No	Substance	ppm	mg/m <sup>3</sup>	f/cc	Category	Origin
7439-92-1	Lead inorganic (as Pb)	-	0.05		TWA (8 h)	PEL
7439-92-1	Lead	-	0.050		TWA (8 h)	REL
			0.05		TWA (8 h)	ACGIH-2023

#### Biological Exposure Indices (BEI-ACGIH)

CAS No	Substance	Determinant	Value	Test material	Sampling time
-	LEAD INORGANIC COMPOUNDS	Lead	200 µg/L	blood	Not critical

#### Additional advice on limit values

Grinding, brushing and polishing:

dust formation: Irritation to respiratory tract. A repeated, excessive dust exposure can cause pneumoconiosis.

### Exposure controls

#### Appropriate engineering controls

Provide adequate ventilation as well as local exhaust at critical locations.

#### Individual protection measures, such as personal protective equipment

##### Eye/face protection

Wear goggles. Wear face protection.

##### Hand protection

Wear protective gloves. (cut-resistant)

##### Skin protection

Use of protective clothing Disposal of contaminated protective clothing separately, do not reuse.

glass made of ideas

**Safety Data Sheet**

according to 29 CFR 1910.1200(g)

**Respiratory protection**

In case of inadequate ventilation wear respiratory protection.  
Filtering device (full mask or mouthpiece) with filter: FFP3

**Thermal hazards**

Melt: Wear protective gloves/protective clothing. (heat-resistant)

**Environmental exposure controls**

Do not allow to enter into surface water or drains. Do not allow to enter into soil/subsoil.

**9. Physical and chemical properties****Information on basic physical and chemical properties**

Physical state:	solid
Color:	No information available.
Odor:	odorless
Odour threshold:	not applicable

**Test method**

Melting point/freezing point:	not determined
Boiling point or initial boiling point and boiling range:	not determined
Flammability:	not applicable
Lower explosion limits:	not applicable
Upper explosion limits:	not applicable
Flash point:	not applicable
Auto-ignition temperature:	not applicable
Decomposition temperature:	> 467 °C
pH-Value:	6,7 OECD 122
Viscosity / kinematic:	not applicable (solid)
Water solubility:	practically insoluble
Solubility in other solvents	
Fat: not applicable	
Partition coefficient n-octanol/water:	The substance is not soluble in water.
Vapor pressure:	up to Tg no significant vapor pressure is to be expected
Density:	5,1 g/cm <sup>3</sup>
Relative vapour density:	not applicable
Particle characteristics:	not determined

**Other information****Other safety characteristics**

glass transition temperature: 467 °C ISO 7884-4

**Further Information**

No information available.

**10. Stability and reactivity****Reactivity**

No hazardous reaction when handled and stored according to provisions.

**Chemical stability**

Stability: Stable

The product is stable under storage at normal ambient temperatures.

**RD 50®**

Revision date:

**29.08.2024**

Revision No:

**1,0**

Print date:

**02.09.2024****SCHOTT**

glass made of ideas

**Safety Data Sheet**

according to 29 CFR 1910.1200(g)

**Possibility of hazardous reactions**

Hazardous reactions:

May occur

Reaction with: Strong acid, Hydrofluoric acid, H<sub>3</sub>PO<sub>4</sub>, Phosphoric acid, Alkali (lye), concentrated**Conditions to avoid**

Humidity

Temperature &gt; Decomposition temperature (Formation of: Metal oxide smoke, toxic)

**Incompatible materials**Strong acid, Hydrofluoric acid, H<sub>3</sub>PO<sub>4</sub>, Phosphoric acid, Alkali (lye), concentrated**Hazardous decomposition products**

Metal oxide smoke, toxic (Temperature &gt; Decomposition temperature)

**11. Toxicological information****Route(s) of Entry**

oral, dermal, inhalative, Eye contact

**Information on toxicological effects****Acute toxicity**

Based on available data, the classification criteria are not met.

The toxicological potential of glasses results from the bioavailability of individual components when used improperly. This is determined by the bioaccessibility test according to Fraunhofer. It is a leaching method of the material performed in 5 artificial body fluids. (AHBL)

Acute oral toxicity: no classification (no bioaccessibility detected)

Acute dermal toxicity: no classification (no bioaccessibility detected)

Acute inhalation toxicity: no classification (no bioaccessibility detected)

**Irritation and corrosivity**

Skin corrosion/irritation: Based on available data, the classification criteria are not met.

Serious eye damage/eye irritation: Based on available data, the classification criteria are not met.

After eye contact: Due to its pH value (see section 9), irritation of the skin and eyes cannot be ruled out.

at pH 5,6 - &lt; 7,3 &amp; &gt; 9,7 - 10,5: Irritation: slightly irritant but not relevant for classification. (GHS/CLP criteria are not met.)

at pH &gt; 2 - &lt; 5,6 &amp; &gt; 10,5 - &lt; 11,5: Risk of serious damage to eyes. (GHS/CLP criteria are not met.)

**Sensitizing effects**

Based on available data, the classification criteria are not met.

**Carcinogenic/mutagenic/toxic effects for reproduction**

May damage fertility or the unborn child (specialty glass, oxide, chemicals)

Germ cell mutagenicity: Based on available data, the classification criteria are not met.

Carcinogenicity: Based on available data, the classification criteria are not met.

The following substances can be extracted and are bioavailable: PbO

**Specific target organ toxicity (STOT) - single exposure**

Based on available data, the classification criteria are not met.

**Specific target organ toxicity (STOT) - repeated exposure**

Causes damage to organs through prolonged or repeated exposure (specialty glass, oxide, chemicals)

The following substances can be extracted and are bioavailable: PbO

**Aspiration hazard**

Based on available data, the classification criteria are not met.

**Information on other hazards**

**RD 50®**

Print date:

**02.09.2024****SCHOTT**

glass made of ideas

**Safety Data Sheet**

according to 29 CFR 1910.1200(g)

**Endocrine disrupting properties**

This substance does not have endocrine disrupting properties with respect to humans.

**Other information**

In case of inhalation (dust/mist):

Irritation to respiratory tract. A repeated, excessive dust exposure can cause pneumoconiosis.

**12. Ecological information****Ecotoxicity**

The ecotoxicological effect of glasses is determined by the ecological accessibility of hazardous substances that can be released under environmental conditions from the glass matrix. For characterization, the test from the German landfill regulation (Dep-VO) is used. In the evaluation, the leachable hazardous substance content, in relation to the total amount of the per se non-hazardous glass, is treated as a standard mixture proportion and classified accordingly.

Result / Evaluation: The product is not: Ecotoxic.

**Persistence and degradability**

Inorganic product which is not eliminable from water through biological cleaning processes. The methods for determining the biological degradability are not applicable to inorganic substances.

**Bioaccumulative potential**

No information available.

**Mobility in soil**

No information available.

**Endocrine disrupting properties**

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

**Other adverse effects**

No information available.

**Further information**

Avoid release to the environment.

**13. Disposal considerations****Waste treatment methods****Disposal recommendations**

Do not allow to enter into surface water or drains. Neither the product nor the residues from the processing. Dispose of waste according to applicable legislation.

**Contaminated packaging**

Dispose of waste according to applicable legislation.

**14. Transport information****U.S. DOT 49 CFR 172.101****Proper shipping name:**

No dangerous good in sense of this transport regulation.

**Marine transport (IMDG)****UN number or ID number:**

No dangerous good in sense of this transport regulation.

**UN proper shipping name:**

No dangerous good in sense of this transport regulation.

**Transport hazard class(es):**

No dangerous good in sense of this transport regulation.

**Packing group:**

No dangerous good in sense of this transport regulation.

**Air transport (ICAO-TI/IATA-DGR)****UN number or ID number:**

No dangerous good in sense of this transport regulation.

## Safety Data Sheet

according to 29 CFR 1910.1200(g)

<b>UN proper shipping name:</b>	No dangerous good in sense of this transport regulation.
<b>Transport hazard class(es):</b>	No dangerous good in sense of this transport regulation.
<b>Packing group:</b>	No dangerous good in sense of this transport regulation.

### Environmental hazards

ENVIRONMENTALLY HAZARDOUS: No

### Special precautions for user

No information available.

### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

not relevant

## 15. Regulatory information

### U.S. Regulations

#### National Inventory TSCA

CAS No. 65997-17-3, specialty glass, chemical, oxide: Yes.

#### National regulatory information

SARA Section 304 CERCLA:

Lead (7439-92-1): Reportable quantity = 10 (4.54) lbs. (kg)

SARA Section 311/312 Hazards:

specialty glass, oxide, chemicals (65997-17-3): Delayed (chronic) health hazard

SARA Section 313 Toxic release inventory:

Lead (7439-92-1): De minimis limit = None, Reportable threshold = 100 lbs.

Clean Air Act Section 112(b):

Lead (7439-92-1)

### State Regulations

#### Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65, State of California)

WARNING: This product can expose you to chemicals including Lead (cancer, developmental, reproductive), which are known to the State of California to cause cancer, birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

Observe in addition any national regulations!
