

Ampoules Anti-Counterfeiting (AC)

Datasheet

Ampoules Anti-Counterfeiting (AC) – Effective protection against drug counterfeiting

- Reports from the World Health Organization (WHO) show that 10% of all drugs sold worldwide could be counterfeits.
- SCHOTT Pharma's Ampoules Anti-Counterfeiting (AC) providing pharmaceutical companies with a powerful tool against counterfeiting, as well as protecting patient health.
- Ampoules AC are printed with an ink containing light-emitting particles in the shape of identification rings, OPC dots, and/or printed text. Only visible with a special reader, these markings ensure the drug's authenticity.
