

Facts & Figures

SCHOTT in fiscal year 2019/2020

Pioneering. Responsibly. Together.

These attributes have characterized SCHOTT, manufacturer of special glass, glass-ceramics and other innovative materials, for over 130 years. As #glasslovers and inventor of special glass, we are reliable partners for high-tech industries to enable new market launches and applications. Our goal is to become climate neutral by 2030.

Discover our Core Markets

ARCHITECTURE – SCHOTT produces specialty glass and glass-ceramics for a huge range of architectural applications – from fire protection to true-to-original glazing of historic buildings. Outstanding quality, visual appeal and safety go hand in hand.

AUTOMOTIVE – SCHOTT is a driving force when it comes to the technological development, safety and aesthetics of cars. Every year, the company supplies billions of highly reliable components, from hermetical sealings for sensitive electronics to stylish interior lighting.

AVIATION, ASTRONOMY AND SPACE – SCHOTT has been working with the aerospace industry for many years to drive design, safety and efficiency. Mirror substrates from SCHOTT play a key role in telescopes for astronomy.

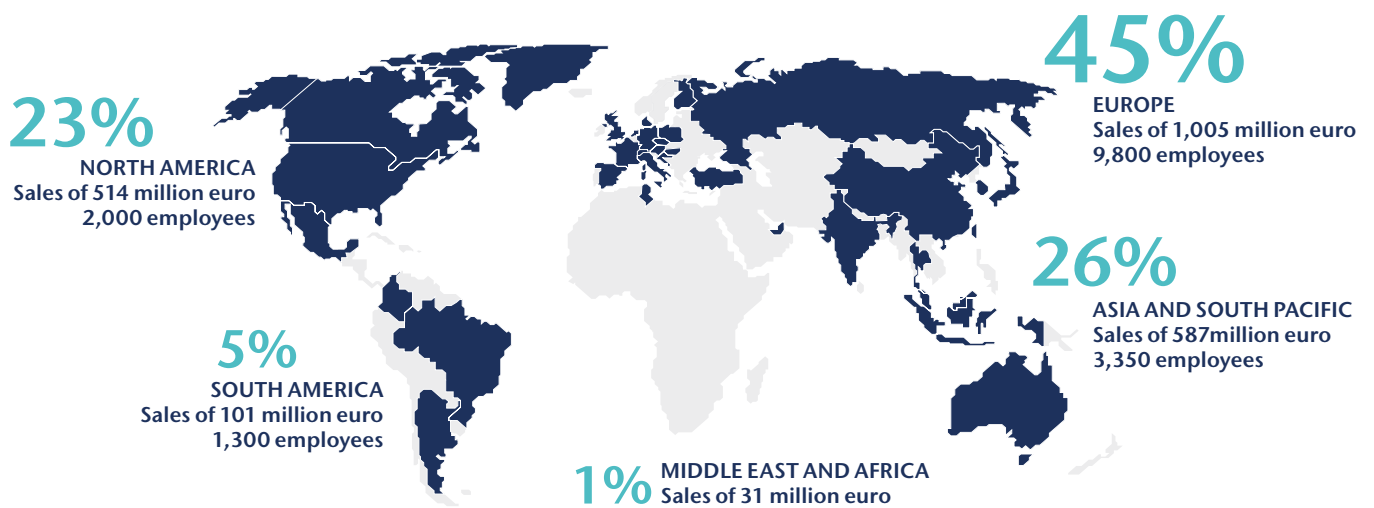

CONSUMER ELECTRONICS – This highly competitive market thrives on new innovations. SCHOTT delivers by working on robust and flexible cover glasses for smartphones of the future and filter glasses that deliver outstanding images, just to name a few innovations.

HEALTH – With its pharmaceutical packaging and components for use in medical technology and diagnostics, SCHOTT makes an important contribution to people's health – from safe packaging of high-quality drugs to rapid and precise diagnoses.

HOME AND LIVING – We want our homes to be stylish, warm and safe. Whether it's components for kitchen appliances or design solutions for the bathroom, living room and backyard, SCHOTT products help to combine functionality with creative design.

INDUSTRIAL AND ENERGY – Industrial plants and energy systems must be reliable, economical and durable. Thanks to its experience, SCHOTT is an important development partner with its electrical feedthroughs, melting glasses and battery solutions.

OPTICS – More than 130 years of experience in the field of optical glass enables SCHOTT to offer its customers both a broad product range as well as comprehensive service.

RETAIL AND GASTRONOMY – Glass solutions from SCHOTT are helping retailers and restaurants to stand out from the crowd with their quality and design – for example with attractive and energy-saving commercial cooling cabinets.

SEMICONDUCTORS AND DATACOM – The role of datacom and electronics in our lives are growing daily. SCHOTT offers a wide range of innovative components which allow faster data transmission and progressive miniaturization.
