ROBAX® Dry Wiper

Streak-free. Residue-free. Effortless.

Many fireplace owners know the problem: soot on the glass-ceramic fire-viewing panel clouds the view of the fire, and cleaning is often tedious and time-consuming.

The ROBAX® Dry Wiper provides the solution! Especially developed for glass-ceramic fire-viewing panels, its unique material structure reliably removes even stubborn soot, ensuring thorough and scratch-free cleaning. Its ergonomic shape fits comfortably in the hand, making it easy to use. Thanks to its high-quality material, it is also highly durable.

Advantages of the Dry Wiper

- Easy handling – clean results in a single step
- No scratches
- No damage to seals
- No water, additional cleaners, or extra products necessary
- No additional wiping required

How to use the Dry Wiper

Allow the fire-viewing panel to cool down completely.

Only use the Dry Wiper dry – do not moisten!

Rub the grey active side of the Dry Wiper over the cold dirty window.

After cleaning, gently shake the debris from the Dry Wiper and store it in the original packaging.

Effortless cleaning. Time for what matters.

Enjoy a clear view of the fire – with a cleaning method that's as simple as lighting it.

Caution!

The SCHOTT ROBAX® Dry Wiper is designed only for use on non-coated SCHOTT ROBAX® fire-viewing panels.
